

The Green Energy Machine

An Educational, Mobile Solar Kit for Schools and Nonprofits

The Green Energy Machine provides educational opportunities to explore:

- Sustainability
- Solar energy
- Electricity
- Circuits
- Angles
- Weather and more!

Educational applications across K-12 and all subjects.

Each solar kit is equipped with:

- 100W panel
- 12 V battery
- Data collection
- Power terminal
- Utility cart
- Experimental lighting
- Additional options

Create a tangible solar-energy experience for students!
