

# In celebration of the 20th Anniversary of the Olentangy Watershed Alliance

## Fish Habitat Assembling Event

Come join the Olentangy Watershed Alliance (OWA) and the Delaware Lake Army Corps of Engineers staff as we assemble porcupine crib fish habitat structures to be placed in Delaware Lake. This concept was originally designed by the Pennsylvania Game Commission and is intended to help restore suitable fish habitat to reservoirs. We are "borrowing" their plans in an effort to increase the quality of fish habitat in Delaware Lake. All tools and safety gear will be provided. We will be working in the Elm Grove shelter located at the Delaware Reservoir Playground, see the starred area on the map below. This is an open air shelter, please dress for the weather accordingly. In the event of inclement weather, the assembling will be moved into the Army Corps' shop just east of the shelter. Participants under the age of 18 must be accompanied by a parent or guardian.

Registration is required; to register, please email OWA at [olentangyriverwatershed@gmail.com](mailto:olentangyriverwatershed@gmail.com).

**Date:** Sunday, April 28, 2019

**Location:** 3920 U.S. Highway 23 N, Delaware, OH 43015

**Time:** 9am-noon
